Dr. Joshua Lederberg
Department of Genetics
Stanford University Medical Center
Palo Alto, Calif.

Dear Dr. Lederberg:

As Dr. Kretchmer may have mentioned to you, I have decided to accept the offer to come to Stanford. I was most appreciative of your letter of last week and delighted to hear of your decision to investigate the molecular biology of the nervous system. I am looking forward to establishing a close relationship with you and your colleagues, and to what I am sure will be an extremely exciting and productive investigative atmosphere.

Sincerely yours,

Guy M. McKhann
